What He Did Is History . . .

A Chronology of Terror!

Why He Did It

Can Now Be Told

Why did Adolf Hitler found the Nazi Party? Why did he decide never to marry? Why did he decide to exterminate the Jews? Why did he instigate the infamous "blood purge"? Why did he decide to go to war? Why did he take his own life?

Questions like these could never be fully answered until now. But the shocking answers to these and others are revealed for the first time in this special series of articles. Here, for the first time are the facts behind the Nazi tyrant's 12 decisions that shook the world.

Lac la Biche Boys' Choir To Appear On Television

LAC LA BICHE — The boys' choir, composed of 34 boys from Grades 3 to 6, journeyed to Edmonton, Apirl 4, where they were televised at CFRN-TV for the program, Kiddies on Kamera, which will be released at a later date.

Under their director, Mrs. Lucille Joncas, who was also their accompanist, the boys sang "Swing Low, Sweet Chariot" and "Clancy Lowered the Boom." They will appear on TV April 14 at 4 p.m., and April 18 at 5 p.m.

The group, who travelled to Edmonton in John Benuik's bus, was accompanied by Principal F. W. McMillan and Mrs. McMillan. Arriving in the city at 4 p.m., the group toured the parliament buildings. Many of the youngsters climbed to the dome. A drive was taken across the High Level Bridge, followed by a turkey supper at the Seven Seas restaurant.

The boys were at the TV station from 7 to 9 for their telecast, which the parents who were in the group were able to see live from one of the studios.

The tired, happy group returned home the same evening. For many of the children it was their first trip to the city. They were most impressed with their visit to the parliament buildings, but the entire trip will long remain in their memories.

World War Veteran Dies In Edmonton

LAC LA BICHE — David Ross, veteran of World War I, passed away in the Col. Mewburn Hospital in Edmonton at the age of 76 years, after a prolonged illness.

Funeral services, held April 6, were conducted by Rev. A. B. Simpson from Connelly McKinley Chapel. Burial was in the Field of Honor at Beechmount Cemetery.

Pallbearers were J. Parkus, S. Lee, G. Amard, J. Gorda, C. Rud and I. W. Steele, veterans of the Army, Navy and Air Force.

Mr. Ross was well known in this 25 years before he entered the veterans' hospital two years ago.

James Stewart Receives Red Cross Swimming Award

LAC LA BICHE—James Stewart was presented with his senior leader swimming award bronze medallion in life saving at a special ceremony held at Red Cross House in Edmonton on April 7.

This makes James a water safety instructor with only his age between him and a full instructor's award. Instructor's must be 18 years of age

Dr. M. R. Bow, president of the Edmonton Red Cross Branch, and A. G. Gilmet director of water safety for the province of Alberta and chief instructor on the swimming course, presented the awards to those qualifying from the Easter course and the winter evening class in a combined ceremony that marked "finish" to both courses.

Coffee and sandwiches were served to the guests as they arrived and the presentation followed. Mr. Gilmet publicly thanked all who had assisted in any way in the course. Dr. Bow explained some of the services of Red Cross and commended the swimmers for taking the course and thus putting themselves in a position to give leadership in their own communities and for a desire to play some part in the improving of the situations for other people. He expressed a hope they would experience a lasting satisfaction while working to improve the lot, and bettering the opportunities of their fellow man.

The class presented instructor Verla Dowell and Mr. Gilmet with a gift in appreciation of the time and patience spent on the candidates during the classes.

Richard Hayduk was registered for the course but due to an accident was unable to finish the classes.

MICHAEL MACCAGNO, mayor of the town of Lac la Biche, and MLA of the Lac la Biche constituency, has been named acting Liberal leader for the provincial party. Mr. Maccagno is the only Liberal returned to the present House, having first entered the legislature in 1955 as representative of Lac la Biche. Political experts speculate that Maccagno will probably become the provincial party's permanent leader at the next leadership convention.

Lac la Biche

Mr. and Mrs. Harry Lobay and family spent several days in Edmonton and Smoky Lake during the Easter holidays.

Lorry Blais, who has been staying with his grandmother, Mrs. Ed Cadieux, and attending school, flew to Vancouver during the Easter holidays to visit his parents, Mr. and Mrs. Laverne Blais.

Young people home for the holiday weekend included Robert Cherkas, Calgary; Carol Stewart, Marilyn McMillan, Morris Linnell, Ida and Roger Langevin, Edmonton.

Mr. and Mrs. Harry Lang of Edmonton spent the Easter holidays at the home of Mrs. Lang's parents, Mr. and Mrs. Dan Joncas.

Funeral Rites Held For Sykes Shaffer

LAC LA BICHE — Funeral services for Sykes Clarence Shaffer were held in the Memorial Hall, Lac la Biche, April 4. Rev. S. Munro officiated and burial was in the Lac la Biche cemetery.

Mr. Shaffer passed away in the General Hospital, Edmonton, after a short illness.

He was born at Ryley in 1912. In 1921 he moved to Iron River where he farmed till 1936. In that year he married Patricia McDermott of Iron River. The young couple moved to a trapline in the north where they lived till they moved to their present ranch north of Owl River seven years ago.

Left to mourn are his loving wife Patricia; two sons, Ralph and Cecil; two daughters, Ida (Mrs. Art Schiewe) of Lac la Biche, and Ruth at home: his father, five sisters and two brothers.

A support price of 4.15 cents a pound for the 1961 sunflower crop, basis Canada No. 1 grade at 10 percent moisture, delivered to the crusher, has been announced by Agriculture Minister Hamilton.

Auction Sales Galore In "C.L."

Our farmer readers will be particularly interested in the exceptionally large number of auction sales advertised this week and every week in the Alberta Country Life sections of this paper. Every type of farm equipment, livestock, buildings, grain and seed is listed in these advertisements. Maccagno Argues In House:

MD Council Not Responsible For Money Spent By Trustee

Is a municipal councillor responsible to the voter for the money spent by a school trustee who is elected by the same voter? According to Highways Minister Gordon Taylor, he is.

According to Dr. Stanley Clark, executive secretary of the Alberta Teachers' Association; Mike Maccagno (L-Lac la Biche); and Earl Ansley (Ind. SC-Leduc), he isn't.

The fuss developed before the Legislature's agriculture committee which was hearing submissions on on the new provincial government education tax plan.

At issue was the local autonomy of school boards.

Dr. Clark, reading the ATA brief, said such autonomy was threatened by the fact that municipalities can appeal school board requisitions to a government board.

In cross-examination Mr. Taylor zeroed in.

Wouldn't local autonomy be as well served as long as representatives elected by the people had the final say, he asked?

Dr. Clark thought the responsibility should stay with the electors through their school board, and no one else.

PUBLIC TRUSTEES

Mr. Taylor said it was a matter of fact and law that when a municipal councillor runs for office he is promising to safeguard the public money, be it for school use or for municipal use.

Dr. Clark indicated that he didn't think this was the case, that responsibility for school expenditures rests with school trustees.

Mr. Maccagno, who is mayor of Lac la Biche, wanted to ask Education Minister Anders Aalborg if what Mr. Taylor said was true.

Premier Manning told him to ask the question later, if he wished, when the Legislature was in proper session and not in committee.

COLLECTORS ONLY

Mr. Maccagno went on to say that he thought the municipality was merely the collecting agency for the school board, and had no control over setting the education mill rate, or spending the money.

Mr. Ansley, who was Social Credit minister of education for some years prior to 1948, agreed with his opposition colleague. He thought it "takes quite a while to get this point driven across to some on the other side of the House."

He asked Mr. Clark if he had ever heard of a school trustee, at a ratepayers' meeting, blaming an expenditure on a municipal councillor.

Mr. Clark said he never had, directly or indirectly.

Neither municipal affairs minister A. J. Hooke nor Mr. Aalborg joined in the discussion.

Gourin

Rolland Vincent and Lawrence Ulliac were visitors at the Frank Ulliac's last weekend. They visited Frank who was a hospital patient.

The grand opening of the Gourin General Store was a popular event. Free orange juice was served everyone. Andre Shaub is the new proprietor.

Frank Ulliac is home again after a week and a half in Lac la Biche Hospital. He had four broken ribs.

Maurice Lambert is now employed in Rudiger's Garage in Lac la Biche.

Lubrication Method Must Change, Too...

The "horseless carriage" could hardly meet the challenge of the modern automobile in durability, speed, safety and beauty.

Yet, in its day, it was the last word. Imperial methods of manufacture and scientific advances have brought with them improved cars. Hand in hand with this progress has come improved methods and equipment for lubrication. "In their day" these out-worn methods were alright but today they're out of step with the times. For modern lubrication we advise you to stop here.

Plamondon To Hold Opening Of Alberta Treasury Branch

PLAMONDON — Official opening of the Alberta government treasury branch agency will be held in Plamondon on Monday, April 17 at 10 a.m. in the new office located in the Trio Cafe building.

A. Schiewe and his assistant from the treasury branch at Lac la Biche will be here to officially open the agency.

Edgar Belanger will be the agent of the Plamondon branch. Edgar has prepared a very attractive office.

It has been a period of two years since the idea first originated and, with the help of Mr. Schiewe and the Plamondon board of trade, it will soon be a reality.

This is the people's opportunity to show their appreciation by patronizing the branch. It has been organized for their use and benefit and it will depend upon them and their co-operation to make the agency a success.

Doughnuts and coffee will be served by Mr. and Mrs. Edgar Belanger.

GREEN ACRES

By Fred Strashok, District Agriculturist

Many farmers will be interested to note that they may control warble grubs and lice in cattle with the same insecticide. Each treatment will have to be different but the use of rotenone warble wash or spray has proved satisfactory for the control of both insects. Other insecticides such as Malathion and DDT may be used for lice control but not on milk cows nor on beef animals unless used a certain period before slaughter. It is wise to follow the manufacturer's directions.

To treat for warble grubs the rotenone insecticide has to be applied with a stiff-bristle scrub brush and only the backs of animals are to be treated. For lice control thorough wetting of the whole animal is almost a necessity.

CANNIBALISM IN CHICKS

At this time of the year a lot of trouble has been experienced with chicks picking at one another until some are pecked to death. Many recommendations have been tried with some success but the best control is by debeaking. Debeaking is recommended by Dr. Bigland, pathologist with the poultry disease section of the Alberta veterinary services branch.

The exact cause of cannibalism is not known. But it does appear to be a bad habit brought on by feed deficiency or anything that makes birds nervous, irritable or bored.

First signs of cannibalism among chicks will be noticed by their bleeding toes. They may be noticed pecking at each others eyes.

Good management combined with debeaking play an important role in prevention of cannibalism. Healthy birds must have a well balanced ration and access to an insoluble type of grit such as granite grit or crushed gravel. Overcrowding, overheating, lice and mites all encourage cannibalism in farm flocks.

SEED TREATMENT— BETTER CROPS

Seed treatment protects crops against diseases such as root rots, seedling blight, covered smut and, if an insecticidal treatment is used, against wireworms. Proper treatment leads to higher germination, improved seedling stand and vigor, and increased yields. At this time when each bushel increase in yield means so much from an economical point of view the farmers cannot be good managers if they do not treat their seed they plant with some fungicidal and in some cases, insecticidal treatment.

There are different types of seed dressings that may be used but the mercurial compounds seem to give the best results. Combination compounds which contain mercury and an insecticide may be used.

The control of covered smut, seedling blight and root rots by seed treatment is good investment. It has been calculated that yield increases from 5 to 15 per cent have been experienced by using fungicides to treat the seed. It has been found that a dollar spent on wireworm seed dressings can yield as high as $50 in additional income.

Be sure to treat all the seed you plant.

GRADES ONE TO NINE STILL TO ATTEND SCHOOL AT HYLO

HYLO — The special ratepayers' meeting of the Hylo Centralized school district, which was held on April 7, was well attended. President Mike Zalewsky opened the meeting with Alex Moshuk acting as secretary in the absence of Nick Mahowich.

After some discussion it was agreed, unanimously, that all grades from one to nine, inclusive, should remain to be taught in the Hylo school. Some of the reasons given were: Good school building, adequate accommodation and good facilities. There is even ample room for children from surrounding districts if necessary. This would mean a saving in building expense elsewhere, and the saving in distance of vanning as well as saving the children from a long, tiresome ride.

THE Homemaker

By BERTHA M. McCUTCHEON

The first consideration in choosing a lamp is to see that it serves the purpose for which it is intended. If it is to be used as a reading lamp, test to see that the base is tall enough to light the pages of a book and the shade is wide enough to provide a wide circle of light.

Remember that a white or near-white shade is most efficient, it reflects rather than absorbs the light.

Evaluate a lamp using the aesthetic considerations used in the purchase of any item.

1. Be sure the color will blend well and is repeated elsewhere in the scheme.

2. Study the proportions of a lamp, the relationship between the shade and base plus the relationship of lamp to lamp table and the sum total to the room.

3. Consider whether the lamp style is compatible to the period used in the room. Is the material and form used traditional or informal.

4. Also study the relation of the lamp to existing lamps in the room. Pairs are excellent, but odd lamps may be combined if their height and shades are similar.

MISCELLANEOUS ACCESSORIES

The guides used in choosing ash-trays, candelabra, china, glass, linen and silverware are similar. They must be appropriate in style, scale and color to other accessories, to furniture and to the room.

Study their placement well. Do introduce fresh or artificial flowers, fruit and candles. Do display old china objects, d'art and hang plates, platters and trays on the wall.

Do not neglect to use colorful, useful cushions where they are appropriate. Whether you have a formal or informal room, do keep their form simple.

In conclusion, use accessories with discernment and never overdo. Rotate your possessions if you have too many. Never feel you must display gifts which don't harmonize and do be original in your treatments.

Boy Pierces Side In Fall From Tree

AVENIR — The ten-year-old son of Mr. and Mrs. Theodule St. Jean fell when climbing a tree recently and pierced his side about three inches under the ribs.

He was tree climbing by himself, some distance from the house, when the accident occurred. The lad had been halfway up the tree when he lost his balance, fell, and became hooked to a broken branch, piercing his side on the way down. Hauling himself up to a higher branch, the boy was able to remove the stick from his side.

Returning to the house in shock, he was driven by his parents to St. Catherine's Hospital where X-rays revealed there were no internal injuries. The lad was detained in hospital for several days.

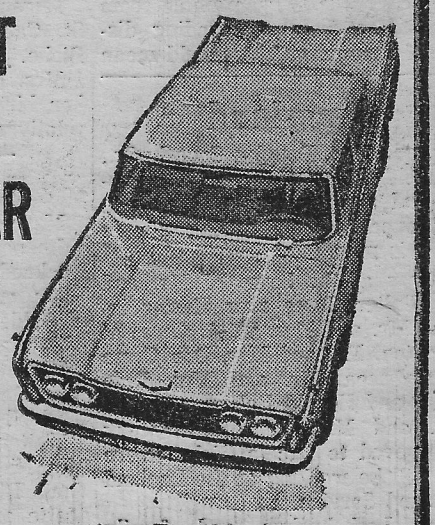
ELEPHANT BRAND FERTILIZER PAID FOR THIS CAR



This is not an exaggeration. By the proper and effective use of Elephant Brand fertilizer, thousands of farmers have been able to buy something they wanted, such as a new car or new farm equipment.

You make more money in two different ways when you fertilize with Elephant Brand. You grow better grade crops which sell for higher prices; you get greater profit from each bushel because it has cost you less to produce each bushel.

GROWING BARLEY?

You can make extra profits of $9.25 per acre and even more by fertilizing your barley crop.

Here is an example of how fertilizer increases profit from barley.

Increased yield per acre with ELEPHANT BRAND	16 bus.
Value of increase (Barley valued at 75 cents per bushel)	$12.00
Approximate cost of fertilizer (50 lbs. per acre of 11-48-0 on summerfallow)*	$2.75
EXTRA PROFIT PER ACRE	$9.25

*Barley on stubble, when properly fertilized can show equally profitable returns.

ELEPHANT BRAND PLUS VALUES

- Uniform size
- Free-flowing
- Pelletized
- All fertilizers highly water soluble
- Strong, weather-resistant non-slip bags
- Fast, reliable service assured by adequate dealer stock

Northland School Division No. 61

Public Notice

By the Board of Trustees of The Northland School Division No. 61 of the Province of Alberta.

WHEREAS it is deemed expedient by the Board of Trustees of the Northland School Division No. 61, of the Province of Alberta, that the sum of one hundred and ten thousand ($110,000) dollars should be borrowed on the security of the said Division by the issue of Debentures repayable to the bearer in twenty-five (25) equal consecutive annual instalments with interest at the rate of not more than six per centum per annum for the following purposes, namely:

(1) erection of a new four (4) classroom school in McMurray Public School District No. 2833, including library and gymnasium with audio-visual stage, (2) Architect's fees, (3) Furniture and equipment, (4) Improvements to site, (5) Water and Sewer.

THEREFORE, notice is hereby given by the Board of the said School Division that unless a poll of the proprietary electors of the said School Division for and against the said debenture loan is demanded as provided by The School Act, the said Board will apply to the Board of Public Utility Commissioners for authority to borrow the said sum by debentures.

Of which all persons interested are hereby notified, and they are required to govern themselves accordingly.

J. W. CHALMERS (Chairman)

Dated at Edmonton this 27th day of March, 1961.

INSTRUCTIONS TO PROPRIETARY ELECTORS IN A SCHOOL DIVISION

A poll may be demanded in a School Division by a demand signed by five proprietary electors of each of at least twenty per cent of the districts in the division.

Every demand for a poll must be delivered to the Secretary of the Division or District or, in his absence, to the Chairman of the Board of Trustees, within Fifteen days after the date of posting or of the last publication in a newspaper of this notice. A certified copy of the demand must be forwarded forthwith to the Board of Public Utility Commissioners of Alberta at Edmonton.

"Proprietary elector" means an elector, who is liable to assessment and taxation for school purposes in respect of any property situate in a School Division.
